[Despatch Abstract.]

Civil Supplies - Sugarm Hospet Factory Area - Commandeering of cane - Proposals of the Collector of Bellary - Approved Staff mf to supervise - Sanctioned.

No. 714/43-1

PRIVATE SECRETARY TO GOVERNOR MADRAS

PRIVATE SECRETARY TO GOVERNMENT
MADRAS GOVERNOR'S CAMP
(Guindy)
JUL 1943

DEPARTMENT

My dear Sivaswamy, 17/7

I am to enclose two extracts from representations made to His Excellency at Bellary by the Chairman, Municipal Council, Hospet, on July 5th, on the following subjects:-

(1) removing ban on export of jaggery to other Provinces,
(2) limiting commandeering of cane to 50% in the next season.

As regards (1), His Excellency understands from the Collector that he is making arrangements to export 5,000 bags (i.e., 5,000 tons) of jaggery for cholam from

harwar in the Bombay Presi-
lency.

His Excellency would like
advice in circulation on the two
representations.

Yours sincerely,

A. J. Platt

T. Sivasankar Esq., I.C.S.,
Secretary to Government,
Development Department, Madras.

Encls: 2 extracts.

Enclosure.

1. Removing ban on export of Jaggery to other Provinces

Hospet is a big jaggery producing centre. It produces about 1½ lakhs of bags of inferior jaggery(excluding the cane supplied to the Factory) which is not consumed by the Madras Presidency. From time immemorial this jaggery was exported to the Districts of Dharwar, Bijapur and Sholapur in the Bombay Presidency, and into the Nizam's State. On account of the ban on this export there is about 50,000 bags of this jaggery at present unsold at Hospet, excluding the quantity available at Kampli and Siruguppa of this Dt. The next season will commence from October and if this jaggery is not exported within that time the ryot will be put to a great loss as the prices would go down abnormally owing to the present high stock that is at Hospet. Hence it is essential that this ban should be removed and permission granted to export it to its usual markets of Bijapur, Sholapur, Dharwar, Raichur, Kopbal etc.

2. Limiting commandeering of cane to 50% in the next season.

Last year cane was commandeered indiscriminately to the Local Sugar Factory for producing sugar. Some of the ryots suffered very badly, as all the cane that they had cultivated was commandeered, while others who had crushed their cane before the orders were passed escaped scotfree(Producing jaggery, which fetched a better price than the commandeered cane). This has produced a lot of heart burning in the ryots. There is about 7000 acres of cane in Hospet area which could easily yield about 1,40,000 tons of cane. It is not possible under any circumstances for the factory to crush more than 60,000 tons of cane. Hence it is requested that orders may be passed early commandeering only 50% of every ryot's cane in Hospet area. This would go a long way to minimise the losses of the ryot.

Draft Dev. Department. 5

Memorandum No. 17750 J/43-1 dated 13.7.43.

Sub: Civil Supplies - Cane - Hospet area - Commandeering.

An extract from a repreaentation on the subject cited above made to H.E. the Governor at Bellary on 5.7.43 by the ~~Commissioner~~ Chairman, Municipal Council, Hospet, is forwarded to the Collector of Bellary. The Collector is requested to offer his remarks on the representation very urgently. His reply should be submitted through the Bd. of Rev.(C.S.)

Sub: Civil Supplies - Jaggery - Export from Bellary in exchange for cholam from Bombay.

It is understood that during his visit to Bellary H.E. the Governor was informed by the Collector of Bellary that he was making arrangements for the exchange of 50000 bags of jaggery for cholam from the Dharwar district of Bombay. I am to enquire whether the Collector is acting under instruction from the Bd. of Rev. (CS) and if so what the facts of the case are.

6 Deputation of jaggery merchants from Hospet

I have told them I am not prepared to lift ban at present on export to Hyderabad & it is their desire not to export & keep up local prices But prices of jaggery have got to come down

Collrs & CCS must be asked to help in finding a market for this jaggery

There is another plea in the export to C.P. has been suggested as Hyderabad has told us they do not want jaggery as they can get it from C.P. that seems doubtful

They assure us that the jaggery made at Hospet is hard & will keep for another 3 or 4 years quite easily but they require to sell their stocks to go on trading.

See Collrs note below.

1.8.43

1/8/43

A2

It is clear on para 4 that I told H.E. that I was arranging to exchange Jaggery for cholam in Dharwar District. This is not strictly correct. What I should say was I was suggesting an exchange of this kind if the Board and Government agreed, the reason being that Bellary district was extremely hard up for cholam

My dear Narasimhan,

Sub: CIVIL SUPPLIES - Jaggery - Export from Bellary in exchange for cholam from Bombay.

Ref: Your D.O.No.17750 J/43-2 dated 19/7/43.

I am to state that the Collector of Bellary informed the Board that the President, District Board, Bellary had written to him that there is surplus cholam in the Dharwar district and that the people there were in need of jaggery and requested the Board to arrange for the import of cholam in exchange of jaggery from that district. As Bombay is deficit in millets under the Basic Plan of the Government of India, the Collector was informed that the Bombay Government will not agree to spare any cholam for this Province in exchange of jaggery. No other instructions were issued to him.

Yours sincerely,

READ: Government Memo N .17750 J/43-3 dated 9/3/43

--

REFERENCE:

With reference to the Government Memo cited above, the Board submits that ever since the Board became aware of the availability of a large stock of jaggery in the Hospet area the question of finding a market for this jaggery has been engaging its attention. The Collectors of Kistna, Guntur, Nellore, Anantapur, Kurnool, Cuddappah were informed of these excess stocks. On a reference made by the Collector of Cuddappah, the Board arranged for the transport of 400 maunds of jaggery a month from Bellary district to Cuddappah. With a view to enable the intending buyers to get in touch with the sellers in the Bellary district, the Board communicated the names of merchants in Hospet who hold large stocks of jaggery to the Collectors of Nellore and Guntur asking them to furnish these names to the intending buyers in their districts.

6

The Collector of Bellary was asked to furnish these Collectors the names of other merchants similarly.

2. When the proposal of exchanging 8000 tons of jaggery for 16,000 tons of pulses from Hyderabad was made by the Government, the Board felt that a large quantity of Hospet jaggery would find an export to Hyderabad. But the Nizam's Government have not accepted the proposal in full so far. Although they have requested the export of 45,000 maunds or about 1,666 tons of jaggery from Anakapallee in Vizagapatam district in exchange for the pulses they have imported into this Province. Orders of Government about the ratio in which jaggery is to be released for the pulses from Hyderabad have been solicited separately. A

3. The Board has since issued necessary instructions to the Collectors of Cuddappah, Kurnool, Anantapur, and Bellary to find a market for the excess jaggery in the Bellary district as suggested by the Director of Agriculture and it will submit its further report in the matter after the reports from the Collectors have been received. Sir

Sub:Civil Supplies-Jaggery-Manufacture in the factory areas in the Bellary and Vizagapatam districts-Prohibition-Commandeering of sugar cane-Hospet area.

Ref:. Board's Ref.No.4535-C/43(CS),dated 29-6-43 and Government Memorandum No.17750J/43-1 dated 19th July 1943(Development Department.)

As above

After consulting the representatives of ryots and the sugar factory at Hospet,the Sub-Collector has proposed that 60 per cent of the sugar cane grown in the 17 villages mentioned below may be commandeered for supply to the Hospet Sugar Factory. He has selected 17 out of the 22 - villages in which cane was commandeered last year. He has left out the other five villages as the facilities for carting cane from them are poor and difficult. I agree with him and recommend that manufacture of jaggery may be prohibited in the villages except to the extent specifically permitted by the Sub-Collector,Hospet.

As regardsthe actual working of the scheme to commandeer the 60% of cane required by the factory, I propose to have a personal discussion with the Sub Collector early next month and arrange the details of the scheme to be enforced. I therefore request that a suitable notification may be published with regard to the villages mentioned below:

Name of the village.	Extent sown with sugar cane in Acres.
1.Chitwadigi	356
2.Muddalapur	551
3.Hospet	260
4.Amaravathi	396
5.Hosur	1406
6.Belagodu	191
7.Nagenahalli	148
8.Kallirampuram	180
9.Hosakota to the East of Mukarti Halla.	107
10.Gudiobalapuram	188
11.Narasapur.	266
12.Ka irampuram	104
13.Malapanagudi	307
14.Kamalapur.	299
15.Shro.Krishnapur	59
16.Shro.Hamp.	42
17.Malapuram.	25,

As regards the ban on the export of jaggery of the previous season I request that it may be removed immediately for the reasons stated below: the next crushing season is fast approaching and the new jaggery will be available from about the beginning of November next or even a little earlier. Up to date absolutely no progress has been made in the disposal of the stock on hand (9 to 10 thousand to in spite of the fact that the merchants of Kurnool and Cuddapah and Guntur and Nellore have been asked to purchase from this area. The latest proposal of the Board that Messrs Parry & Co.,Ltd., may take 500 tons for export to Travancore, has been canelled in Board's No.8036/C/43 CS dated 17-8-43. So there is very little prospect of making any further successful attempt for the disposal of the stock within the Presidency in the short before fresh jaggery comes to the market. If the stoks remain undisposed of till the appearance of fresh jaggery several ryots will be ruined and in addition they will have to finance for fresh activities and find new godowns for keeping fresh stocks. The Government will lay themselves open to the charge that they are mostly if not entirely responsible for the loss caused to the ryots. At least at this late hour, I request that the ban may be removed immediately so that the ryots can do their best to find other market outside the Province. When the ban was first imposed in the early part of

of this year, the sugar position in the country was very unsatisfactory and there was every need to impose the ban. Now the position has become more easy and more satisfactory there is no justification to continue the ban any longer. If necessary it may be reimposed from about the 20th October, i.e., when the fresh jaggery season commences. In the above circumstances I strongly recommend that the ban may be removed immediately. It is a matter of very great urgency and I therefore request that the Board may be pleased to communicate orders by wire direct to the Sub-Collector, Hospet, and send a copy of it to me.

Collector.

SPARE COPIES ____

Ref:- Board's Ref. No. 4535-C/43(CS), dated 29-6-43, and Govt. Memorandum No. 17750-J/43-1, dated 19th July 1943 (Development Department).

My Ref. No. 2582/43 A-6, 2, dated 24-8-43.

I have since had a personal discussions with the Sub-Collector Hospet regarding the detailed working of the scheme proposed by him i.e, taking over 60% of the cane grown in the 17 villages mentioned in my report quoted above. I am giving below detailes of the scheme proposed by him.

The total quantity of cane required by the factory is about 60,000 tons. The factory has advanced money for the cane grown on 700 acres and proposes to advance monies for the entire cane on 300 acres more. At the rate of 20 tons per acre, it has thus already taken over 20,000 tons and it wants about 40,000 tons more. The total area in the 17 villages in question grown with cane is Ac4,885; deducting 1000 acres out of this, the produce of which has already been taken over by the factory, the balance of acreage left is 3,885 acres with an estimated yield of about 77,700 tons of cane at 20 tons per acre. As the factory's requirements are 40,000 tons more out of this balance the percentage of cane to be taken over comes to roughly 52% in round figures. As it is desirable to have a little margin over this, it is decided to take over 60% of the cane. The Sub-Collector reports have agreed to the proposal.

As regard the staff and the method of supervision for ensuring that the ryots actually deliver 60% of the cane to the Factory, the Sub-Collector, Hospet has given a detailed scheme and I am submitting below extracts from it with a few modifications as the result of our personal discussion.

DETAILS OF THE SCHEME.

(a) That the factory should crush between 60,000 and 70,000 tons this year.

(b) That the factory should start work from the middle of October or 1st of November and go on till the end of March and if necessary, till the middle of April.

(c) That out of the total area of 4885 acres (excluding the area covered by the advances made by the factory to the

to the ryots who, of course have to cart the whole of their sugarcane to the factory if required) , the other holdings have to give to the factory not less than 12 tons per acre taking the the average outturn at 20 tons per acre.

(d) That for each ton of cane carted to the factory after 6 tons have been carted , a permit for making jaggery for one ton will be issued at the factory by a clerk appointed by Government. This idea of reducing the quantity available for jaggery; i.e., 8 tons , by 2 tons per acre, is to make seed cane available to each ryot as otherwise he would short-sightedly convert it into jaggery, if permits were to be given to him. After the ryot has carted his quota to the factory , he can be allowed to make jaggery from the rest of the holding under a permit issued to him for the approximate quantity.

(e) That all the crushers that manufacture jaggery should be licensed.

(f). That these crushers should not make jaggery except on permits covering the quantities produced. These permits should be retained by the persons in charge of the crusher and submitted to the Sub-Collector.

(g) The crushers should maintain accounts showing the quantities received and crushed, the names of the individuals etc., and issue duplicate passports for the quantity of jaggery handed-over, retaining the counter-foils.

(h) No ryot or other individual shall transport jaggery without such permits covering the quanity transported.

(i) No licensed dealer or other person shall purchase jaggery from any individual in the controlled area unless covered by such pass- ports.

(j) The Establishment required:- A senior Agricultural Demonstrartor with experience of Sugarcane cultivation on a salary of Rs.150/- per mensem with two peons, on Rs. 12/- plus Rs. /- each. Twenty maistries, each on Rs.20/- per mensem including dearness allowance, for supervising the crushers and inspecting the fields, one clerk under the Demonstrartor on a salary of Rs.30/- P.M. who will also attend to the issue of permits at the factory.

The factory has agreed to provide Office facilities for the Demonstrator and clerk just as they have done for the Excise Staff. The contingencies will be about Rs.120/- per month, totalling to Rs. 750/- per month and for a period of 5½ months, i.e., from 15-10-43 to 31-3-44 or 1-11-43 to 15-4-44, the total cost of special establishment will work to about Rs.4 100/-

The cost of the establishment will be borne by the factory. The Sub-Collector has discussed the matter with the Director of Agriculture who recently camped at Hospet and he has no objection to spare the service of Senior qualified Demonstrator and he seems to have agreed to the scheme in general. As the crushing season may commence by about the middle of October , it is desirable that the Demonstrator takes charge at least by the middle of October so t at he may acquaint himself with the scheme of work in good time. The factory will also bear the pensionary contribution of the Demonstrator and the clerk. The Sub-Collector will appoint the maistries and peons on a temporarybasis and no pensionary contribution is necessary.

I recommend that the proposals may be accepted and orders sent as early as possible. The Director of Agriculture, may also be requested after approval of the Scheme by Government to appoint a qualified Senior Demonstrator for the job.

Mr 17-19 above — My Ref. No. 2582/43 A-6, 2, dated 24-8-43.

I have since had a personal discussions with the Sub-Collector Hospet regarding the detailed working of the scheme proposed by him i.e, taking over 60% of the cane grown in the 17 villages mentioned in my report quoted above. I am giving below details of the scheme proposed by him.

The total quantity of cane required by the factory is about 60,000 tons. The factory has advanced money for the cane grown on 700 acres and proposes to advance monies for the entire cane on 300 acres more. At the rate of 20 tons per acre, it has thus already taken over 20,000 tons and it wants about 40,000 tons more. The total area in the 17 villages in question grown with cane is Ac4,885; deducting 1000 acres out of this, the produce of which has already been taken over by the factory, the balance of acreage left is 3,885 acres with an estimated yield of about 77,700 tons of cane at 20 tons per acre. As the factory's requirements are 40,000 tons more out of this balance the percentage of cane to be taken over comes to roughly 52% in round figures. As it is desirable to have a little margin over this, it is decided to take over 60% of the cane. The Sub-Collector reports have agreed to the proposal.

As regards the staff and the method of supervision for ensuring that the ryots actually deliver 60% of the cane to the Factory, the Sub-Collector, Hospet, has given a detailed scheme and I am submitting below extracts from it with a few modifications as the result of our personal discussion.

DETAILS OF THE SCHEME.

(a) That the factory should crush between 60,000 and 70,000 tons this year.

(b) That the factory should start work from the middle of October or 1st of November and go on till the end of March and if necessary, till the middle of April.

(c) That out of the total area of 4885 acres (excluding the area covered by the advances made by the factory to the

to the ryots who, of course have to cart the whole of their sugarcane to the factory if required), the other holdings have to give to the factory not less than 12 tons per acre taking the the average outturn at 20 tons per acre.

(d) That for each ton of cane carted to the factory after 6 tons have been carted, a permit for making jaggery for one ton will be issued at the factory by a clerk appointed by Government. This idea of reducing the quantity available for jaggery; i.e., 8 tons, by 2 tons per acre, is to make seed cane available to each ryot as otherwise he would short-sightedly convert it into jaggery, if permits were to be given to him. After the ryot has carted his quota to the factory, he can be allowed to make jaggery from the rest of the holding under a permit issued to him for the approximate quantity.

(e) That all the crushers that manufacture jaggery should be licensed.

(f). That these crushers should not make jaggery except on permits covering the quantities produced. These permits should be retained by the persons in charge of the crusher and submitted to the Sub-Collector.

(g) The crushers should maintain accounts showing the quantities received and crushed, the names of the individuals etc. and issue duplicate passports for the quantity of jaggery handed-over, retaining the counter-foils.

(h) No ryot or other individual shall transport jaggery without such permits covering the quanity transported.

(i) No licensed dealer or other person shall purcase jaggery from any individual in the controlled area unless covered by such pass- ports.

(j) The Establishment required:- A senior Agricultural Demonstrartor with experience of Sugarcane cultivation on a salary of Rs.150/- per mensem with two peons, on Rs.12/- plus Rs.4/- each. Twenty maistries, each on Rs.20/- per mensem including dearness allowance, for supervising the crushers and inspecting the fields, one clerk under the Demonstrartor on a salary of Rs.30/- P.M. who will also attend to the issue of permits at the factory.

The factory has agreed to provide Office facilities for the Demonstrator and clerk just as they have done for the Excise Staff. The contingencies will be about Rs.120/- per month, totalling to Rs. 750/- per month and for a period of 5½ months, i.e., from 15-10-43 to 31-3-44 or 1-11-43 to 15-4-44, the total cost of specia establishment will work to about Rs.4,100/-.

The cost of the establishment will be borne by the factory. The Sub-Collector has discussed the matter with the Director of Agriculture who recently camped at Hospet and he has no objection to spare the service of Senior qualified Demonstrator and he seems to have agreed to the scheme in general. As the crushing season may commence by about the middle of October, it is desirable that the Demonstrator takes charge at least by the middle of October so that he may acquaint himself with the scheme of work in good time. The factory will also bear the pensionary contribution of the Demonstra and the clerk. The Sub-Collector will appoint the maistries and peons on a temporarybasis and no pensionary contribution is necessa I recommend that the proposals may be accepted and orders sent as early as possible. The Director of Agriculture, may also be request after approval of the Scheme by Government to appoint a qualified Senior Demonstrator for the job.

Copy of letter No.2582/43-A-11, dated 16-11-1943 from the Collector of Bellary, to the Secretary to the Commissioner of Civil Supplies, Board of Revenue, Madras.

Sub: Civil Supplies - Sugar - Factory area - Area from which factory can draw cane - Demarcation.

Ref: Board's Ref.6584-C/43, dated 15-10-43.
My report No.2582/43-A-6-2, dated 15-9-43.

pp 33-34 CF of (L)

I invite attention to my report quoted above in which I recommended that each holding shall give 12 tons of cane to the factory, convert 6 tons into jaggery on permmits issued by the Sub-Collector and reserve 2 tons for seed cane. Now the Sub-Collector reports that a pest called "Smut" is prevailing to a large extent in the requisitioned area and that it is desirable not to preserve any infected crop for seed cane lest the pest should spread and become a perpetual danger and recommends that the two tons of cane left for seed per acre may also be given to the Factory for the manufacture of sugar. He also promises to make arrangements for procuring the seed cane necessary for the ryots from the non-affected villages which are adjacent but beyond the requisitioned areas. The additional quantity thus secured to the factory comes to 8,370 tons. This is the tonnage of cane estimated at the conservative rate of 20 tons per acre. In many of the areas the rate will come upto 25 tons per acre. Hence there is no need to requisition cane from any area as to the total supply of cane will easily come upto 70,000 tons which the factory is capable of crushing during this season. I support the suggestions of the Sub-Collector and recommend that the above proposals may be approved and the Government addressed to modify G.O. No.2511, Development, dated 6-10-43 suitably.

Copy of letter Ref.C.No. 4308/43 dated 19-1-44, from P.S.Visvanatha Ayyar Esqr., I.C.S., Sub-Collector, Hospet.

Sir,

Cane commandeering scheme-temporary additional clerk-sanction-requested.

Ref:- G.O.No. 2511 Dev.Dept., dated 6-10-43. (Your file No. C. 2582/43 A-6, dated 9-10-43.

In G.O.No. 2511 Development Department dated 6-10-43 the Government were pleased to sanction the loan of the services of one Agricultural Demonstrator and one clerk from the Agricultural Department on foreign service conditions to the Hospet Sugar Factory to run the Cane Commandeering scheme work with a staff of 20 maistries and 2 peons, appointed on a temporary basis. So far the clerk is busily engaged in.

(i) Drawing a list of all the S.Nos. (villagewar) of sugarcane fields with the names of the pattadars, cultivators, clients etc.,

(ii) verifying the lease deeds before issuing cane cutting permits to find out the legitimate right of each grower and when preparing the cane cutting permit in duplicate,

(iii) maintaining a register for all the permits issued and an account for the tonnage permitted to be cut,

(iv) preparing pay, contingent bills etc., maintaining an account of all the amounts drawn for the scheme,

(v) maintaining the personal register and despatch register,

(vi) maintaining registers for stationery and printed forms,

The wholetime clerk is at present not able to cope up with the work.

P.T.O

2. Now the ryots have begun manufacturing jaggery and the service of another clerk to attend to the following work is quite essential.

(a) Checking the tonnage of cane carted to the factory under the respective cutting permits of the individuals.
(b) preparation of jaggery making permits.
(c) filling up of the number of jaggery coupons required (at one coupon for one ton).
(d) maintenance of jaggery register and crusher register,
(e) checking of jaggery pass ports with the used and cancelled coupons brought back by the maistries,
(f) Issue of licences for erection of crushers.

3. The work has increased considerably and it is very difficult to cope up with the same with the assistance of only one clerk Hence, in anticipation of the approval of the Government, I have appointed a clerk on a temporary basis on Rs.30/- P.M. plus the usual dearness allowance with effect from 20-1-44. The factory authorities were addressed in the matter and their consent will be taken in writing and filed in my office. I request the Collector to kindly address the Government in the matter and obtain their orders approving my action.

Submitted to the Government.

The Board recommends the appointment of 10 additional P.I.O.

Industries on Rs.15/- per mensem plus dearness allowance from 1-2-44 to 31-3-44 and requests that the action of the Sub-Collector Hospet in appointing the additional staff in anticipation of the orders of the Government may be regularised in view of the fact that the applicants were required immediately to supervise the cutting of cane for jaggery manufacture.

For SECRETARY.

To the Additional Secretary, Development Department.(with enclosures)

V.S.S.1 .2.

Copy of the letter Ref: 559/44-A-6 dated 7-2-44 from the Collector of Bellary to the Secretary to Government, Development Department, Madras through the Secretary to the Commissioner of Civil Supplies, Board of Revenue Madras.

Sir,

Sub Civil Supplies - Sugar cane - Commandeering Scheme Bellary Dt. Hospet taluk - Appointment of Additional maistries - Proposals.

I enclose herewith a copy of Ref: C.No.4308/43 dated 31-1-44 from the Sub-Collector, Hospet and request that sanction for the appointment of ten additional maistries required in connection with the satisfactory working the cane commandeering scheme in Hospet area may be accorded with effect from 1-2-44 and upto 31-3-44 on a pay of Rs.15/- P.M. each with the usual Dearness Allowance of Rs.6-8-0. The Sub-Collector Hospet has undertaken to obtain the consent statement of the factory to bear the extra cost of the establishments etc., His action having appointed the additional maistries may be approved.

(True Copy)

Copy of letter No.Ref: C.No.4308/43 dated 31-1-44 from the Sub-Collector Hospet to the Collector, Bellary.

In G.O.No.Ms. 2511 Dev. Dept., dated 6-10-43 the Government were pleased to sanction the appointment of 20 maistries in the cane commandeering scheme as per the tentative scheme put up by the Collector in his No.2582/43A-6, dated 15-9-43. The scheme has been launched on 16-10-43 with a senior Agricultural Demonstrator lent by the Agricultural Department as per the G.O. the head.

2. The area under Sugar cane in the 17 controlled villages is about 4600 acres. The Maistries have to verify whether canes are being cut from the particular survey Nos. as per cane cutting permits whether the company xxxx borrowers are restricting themselves to the areas of cane which were pledged to the factory, whether the ryots are taking canes to the factory under proper identity tickets and thus prevent malpractices and see that proper and regulated supply of cane is being made to the factory from the commandeered area.

3. Now ryots have begun making jaggery under proper permit system. Already more than 50 crushers have been erected and 105 ryots have taken permits to make jaggery. Proper control in the jaggery making operations is quite essential, as otherwise it is quite likely that the ryots may be tempted to

P.T.O.

to cut more canes for jaggery making than they are permitted to; and the temptation to such malpractices is likely to be more, especially when the price of jaggery is very high, as is at present. This, if allowed, naturally will reduce the supply of canes to the factory and the outturn of sugar may be less.

4. Further, jaggery preparation is going on in the adjoining villages of Kalagatta, Danapur, Hosakota etc., and the jaggery bags prepared in the uncontrolled villages are being taken to Hospet through these commandeered villages without any restriction. This will naturally give an opportunity to take the malpractice of preparing jaggery in the controlled villages and send such jaggery bags to Hospet under the pretext that it was prepared in the uncontrolled villages. This more vigilance and control are necessary. In addition to this the season is ripe for preparing jaggery and the ryots are also very anxious to convert their canes into jaggery as early as possi

5. The 20 maistries appointed in the scheme are not able to cope up with their duties, as described above, and therefore necessity is felt for appointing some more maistries to have efficient supervision in the sch As such I am appointing 10 more maistries on the same pay of Rs.15/- P.M. plus the dearness allowance with effect from 1-2-44 in anticipation of the kind approval of the Collector and the Government, and request the said Collector to kindly address the Local Goyernment in the matter and obtain their orders. The factory authorities are being addressed in the matter and the consent will be taken. I have already consulted the Managing Director and he has no objection.

Sub:- CIVIL SUPPLIES - Sugar Cane - Supply to Hospet factory of Additional 2 tons per acre - Procurement of seed cane - Proposals - dropped - report submitted.

pp 39-40 of (2) Read:- Government Memo.No.39713-J/43, Dev., dated 13-12-1943.

Government in their memorandum cited above, approved my proposals regarding the supply of an additional quantity of 2 tons pp35-36 of cane per acre to the factory and modified the G.O.No.2511-Dev of (2) dated 6-10-43 accordingly. The additional 2 tons of cane per acre which were originally reserved for use as seedcane were later-on allotted to the factory on account of the attack of the cane by "Smutt" disease and also with a view to provide the factory with the cane to its maximum crushing capacity. The Sub Collector, Hospet now reports, after consulting the factory authorities, that the factory at its present rate of crushing cannot use the extra-quantity of about 8000 tons of cane, and recommends that the allotment of the additional 2 tons of cane per acre to the factory may be cancelled and the ryots allowed to use it for the manufacture of jaggery. The District Agricultural Officer, Bellary also supports this proposals in order that the extra cane may not go to waste. I request that the Board may be pleased to address Government to approve the above proposals, and issue early orders. As regards the procurement of seedcane, smut-free cane is said to be not available in Hospet Area and the ryots are said to be making their own arrangements to get it from areas free from smut disease.

Civil Supplies - Sugarcane - Supply to Hospet Sugar factory - Revised proposals.

p 2 CF Refa. from the Collector of Bellary No. 538/44-A6. dated 20.2.44.

p 1 CF Refa. from the Bd of Rev(S.S.) No. 6272-C/43J. 1.4.44.

1/4 39-40 CF y (Q) In memo no. 39713 J/43 Dept. dated 13-12-1943 the Govt approved the proposals of the Collector of Bellary for the supply to the Hospet Sugar factory of an additional quantity of 2 tons of cane per acre which was originally reserved for seed purposes as it was reported that the cane crop in the area was affected by a pest called "Smut". The Collector now reports that at its present rate of crushing the factory cannot use this additional quantity of about 8000 tons of cane and recommends that

NOTE FILE DEVELOPMENT DEPARTMENT

Civil Supplies - Jaggery - Ban on export - Removal - Commandeering of cane in Hospet area - Representation to H.E.

C.R. No. 17750 J/43

D.O. from the P.S.G. No.714/43-1 dated 9.7.43.

Please see the d.o. from the P.S.G. on pp 1-2 cf. The representations made by the Chairman, Municipal Council, Hospet, call for the following remarks:-

Removing ban on export of jaggery: In September 1942 the Govt. had to issue orders completely prohibiting the export of jaggery to any place in India outside the Province in order to conserve the available supplies of jaggery in the Province to make good the deficit in the sugar requirements of the Province to the extent possible and to check the rise in the price of jaggery. Subsequently it was decided to allow exports under permits and quotas were fixed for supply of limited quantities to Travancore, Cochin and Coorg. In spite of the ban on exports the price of jaggery increased to such an extent in the Hospet area that the ryots found it more profitable to convert their cane into jaggery instead of supplying it to the sugar factory at Hospet for conversion into sugar. In view of the serious sugar situation in the Province it was necessary to ensure full supply of cane to the factory and the Govt. therefore prohibited the crushing of cane for jaggery in the Hospet area except under permits. If the export of jaggery from the Hospet area were to be allowed this will encourage the conversion of cane into jaggery and the sugar factory will as a result suffer for want of adequate supplies of cane during the coming crushing season. The price of jaggery is still high especially at Bellary - vide statement at (K) and the sugar situation in the Province is still unsatisfactory. In a recent circular letter addressed to all the Provincial Governments the sugar Controller for India has stated that from the point of view of the country's requirements both civilian and military it is vital that the entire mechanical equipment of the sugar factories should be fully utilised and that the factories should be assured of their full quotas of cane supplies. He has suggested to the Provincial Governments the desirability of adopting necessary measures to this end and has in this connection stressed the advisability of either prohibiting the manufacture of jaggery

altogether or restricting the production thereof by introducing a system of licensing in areas on which sugar factories normally depend for their supplies of cane and to stop or regulate the movement of jaggery from the factory areas during the sugar season, namely, from November till about the end of April. The Hospet area is one such factory area. In these circumstances it is submitted that there seems to be no case for the relaxation of the provincial ban on the export of jaggery (in respect of) ~~from~~ the Hospet area. For orders.

As regards the statement that the jaggery produced in Hospet area is not consumed in the Madras Presidency and that the only market for this jaggery is Bombay Province and the Nizam's State, the Govt. have already received a petition to this effect and they have asked the Director of Agriculture to state

(1) whether the jaggery produced in the Bellary Dt. is of poor quality as stated in the petition;

(2) whether this jaggery is not really in demand elsewhere in this Presidency and if so why; and

(3) what if anything can be done to make this jaggery acceptable for consumption in the rest of this Province.

~~The Director of Agriculture's~~ His reply is awaited. It is stated that the Collector of Bellary informed H.E. that he was making arrangements to exchange 50,000 bags (5,000 tons) of jaggery for cholam from Dharwar in Bombay Province. As observed by U.S. the Collector cannot make any such arrangements except under the directions of the C.C.S. It is not known what the real facts of the case are. For orders whether the C.C.S. may be asked whether the Collector of Bellary is acting under instructions from the Board and if so what the facts of the case are. Subject to orders a draft d.o. is submitted.

It may be mentioned in this connection that when the Govt. asked the Bombay Govt. sometime back whether they are prepared to exchange cholam from Dharwar Dt. for jaggery from this Province they said that no cholam could be released from Bombay. The Govt. have since agreed to export 500 tons of jaggery to Nizam's State from Hospet area in exchange for 1,000 bags ~~tons~~ of Red gram. ~~but even this has not been given effect to so far as the red gram~~

~~has not actually arrived yet. The matter is still under further consideration and under A.2's orders, the Dy. C.C.S. has been asked to proceed to Hyderabad at once.~~

2. Limiting commandeering of cane to 50 per cent in the next season: In Feb. 1943 the Collector of Bellary reported that in view of the orders of the Govt. prohibiting the manufacture of jaggery in Hospet area except under licence he had given up the idea of commandeering the standing crop of cane in the Hospet area. In these circumstances the allegation of the Hospet Municipal Council that last year cane was commandeered indiscriminately, would appear to be entirely unfounded. It is for orders whether the Collector's remarks on the allegation may be obtained to enable the Govt. to remove the misconception on the part of the Municipal ~~Council~~ Chairman. Subject to orders a draft memo. is submitted.

As regards the Municipal Council's request that only 50 % of the cane in the Hospet area should be commandeered this year it is submitted that no proposal to commandeer cane in the Hospet area is before the Govt. at present. It may, however, become necessary for the Govt. at any moment to commandeer a portion or the whole of the production of cane in the Hospet area to ensure supplies of cane to the local sugar factory in view of the paramount need to keep the factory going to its maximum crushing capacity. // The P.S.G. states that H.E. desires to have advice in circulation on the representations of the Hospet Municipal Council. The case may therefore be circulated to A2 for orders.

There is no case for lifting the ban on export of Jaggery. In individual cases where the ban has caused hardship export can be permitted. We have tried to use the small surplus of Jaggery that we have as a bargaining counter to get some pulses from Hyderabad.

(1737)

What was actually ordered in the Hospet area last year was not commandeering of cane, but prohibition of the crushing of cane for the manufacture of Jaggery in certain villages. If commandeering becomes necessary during the next season in order to have the sugar factory crushing to capacity, it will then be considered in what villages the commandeering is to be done and of what part of the standing crop.

Mr Gracht in his note on discussion on Hyderabad has stated that A2

Hyderabad can get all the Jaggery they require from the North and now do not require any from us but if we learn it has been taken to Hyderabad it will certainly go across the frontier to some extent H.E.

We have an export element to attend

HH
W-T

H.E. A2 will discuss this in Bellary next week.

AH. 30/7/43

30/7/43.

Subject matter for discussion at Bellary A2

Secretariat minute - Diary as noted by A2 on p. 6

Extract from A-2's minutes etc., on pages 6-7 c.f.

A/ I have told them I am not prepared to lift ban at present on export to Hyderabad and it is their desire no doubt to export and keep up local prices. But prices of jaggery have got to come down. Collectors and C.C.S. must be asked to help in finding a market for this jaggery. There is another file in which export to C.P. has been suggested as Hyderabad has told (us) Mr. Grubb they do not want jaggery as they are getting it from C.P. That seems doubtful. They assume us that the jaggery made at Hospet is hard and will keep for another 3 or 4 years quite easily but they require to sell their stock to go on trading.

See collector's note below.

H.M.H./1-8-43.

A.I.G./6-8-43.

A-2.

B/ It is said on page 2 n.f. that I told H.E. that I was arranging to exchange jaggery for cholam in Dharwar District This is not strictly correct. What I did say was I was suggesting an exchange of this kind if the Board and Government agreed, the reason being that Bellary District was extremely hard up for cholam.

I.M.F.
31.7.43.

To D.S.

A 2's orders at 'A' above:-

Attention is solicited to the notes at 'B' on p. 2 above. The D.A. has since reported that it is doubtful whether there is no demand in this Province for the entire quantity of jaggery produced in the Hospet area and that there should be no difficulty in his opinion in finding a market for this jaggery in the Ceded dts alone if it is properly advertised. He has made certain suggestions to make this jaggery more readily marketable — please see para 3 on p. 6 of Rodpad No 12212 J/No 3 dtd. 6.8.43. Subd. that a copy of the D. A.'s report

para 3 & 6 of Rodpad No 12212 J/No 3 dtd 6.8.43

[Issued as memo No. 17758 J/43-7 dated 23.9.43]

Refer to the Bd of Rev (C.S.) No. 6277-Class II-24-B-43

Please see the proposals of the Collector of Bellary for the Commandeering of cane for the Hospet factory and for licensing the manufacture of jaggery in the Hospet factory area. He proposes to Commandeer 60% of the cane for the factory in the 17 villages specified by him. The detailed particulars regarding the scheme are given on pp 33-34 C/F. The Bd. endorses the proposals. For orders whether the proposals may be approved.

In order to work the scheme the Collector has proposed the employment of the following staff for a period of 5½ months from 15.10.43.

1 Senior Agrl. Demonstrator on Rs. 150 p.m.

1 Clerk on Rs 30/- p.m.

20 mistries on Rs 20/- p.m. each

excluding dearness allowance.

2 peons on Rs 12/- p.m. plus Rs 4 each.

The cost of the establishment will be borne by the factory.

The factory will also bear the pensionary contribution of the demonstrator and the clerk. The Sub-Collector Hospet will employ the peons and maistries on a temporary basis and no pensionary contribution is necessary for these posts. The Bd recommends that the staff may be sanctioned. for orders whether this recommendation will be accepted and the staff sanctioned on the terms proposed.

If the proposal is accepted the D.A. may be asked to depute a suitable Agrl. Demonstrator and a clerk for the work, as it is proposed to employ the staff from 15.10.43. The staff may be ordered to work under the supervision of the Sub-Collector Hospet.

The Agrl Demonstrator and clerk will be lent on transfer by the factory for foreign service during the period of their employment. The Collector of Bellary may be asked to obtain the written consent of the factory to bear the expenditure and also to see that 3 months Salary of the staffs is deposited before the staff is employed. The D.A may be asked to submit proposals regarding the conditions of service of the demonstrator & the clerk. Subject to orders a draft order is submitted for approval. It may be sent to Finance for acceptance.

Collector of Bellary

8-MAY 1944

To

The Secretary to Government,
(Development Department,) Madras.

Ref.C.No. 2207/44A-6. Dated: 5-5-44.

Sir,

Sub:- Civil supplies- Sugar- Hospet Sugar Factory Additional clerk- Sanctioned on foreign- service- conditions- Amendment - Requested.

Ref:- Govt.Memorandum No. 5657-J/44 dated 18-2-44.

In their order read above, Government sanctioned the appointment of an additional Lower Division clerk for work connected with the commandeering of cane etc. But the Sub-Collector Hospet reports that an outsider (non-Madras Service Commission candidate) was actually appointed to the post. In his letter No.para c 180 dated 24-4-44 the Accountant-General says that though an outsider has been appointed the usual recoveries under foreign service conditions should be made according to the orders of Government or that the revised orders of Government obtained. I therefore request that the Government order contained in their memorandum No. 5657-J/44dated 18-2-44 may be suitably amended.

vrh. 6/5.

For Collector.

Sub:- Civil Supplies - Sugar - Hospet Sugar Factory - Employment of additional lower division clerk on foreign service conditions - Amendment to previous orders.

Ref:- From the Collector of Bellary Ref.C.No.2207/44 A.6 dated 5-5-44.

A.S.III.

Please see the letter from the Collector of Bellary on p.1 c.f. In G.O.No.2511 Devt. dated 6-10-43 the Govt. sanction the employment of certain staff including a clerk for work connected with the Commandeering of cane for Hospet factory and for the issue of licences for the manufacture of jaggery in the Hospet area and ordered that the entire expenditure on account of the staff including leave and pensionary contributions should be borne by the Hospet Sugar Factory. Subsequently an additional lower division clerk was sanctioned from 20-1-44 to 31-3-44 for this work subject to the same conditions. The Collector of Bellary has now reported that an outsider not approved by the M.P.S.C. has been appointed to the post of the additional lower division clerk sanctioned subsequently and has requested that the orders in Govt. Memo. No.5657 J/44 dated 18-2-44 sanctioning this post may be suitab amended, so that the usual recoveries under foreign service conditions need not be made in the case of the non-service commission candidate appointed to the post.

2. As the clerk has been appointed evidently under the emergency provisions, he will not be eligible either for leave or for pension and the factory is, therefore, not liable to meet the expenditure on account of leave and pensionary contributions. In view of this it is for orders whether the Collector may be informed that in as much as the post was fill up under the emergency provisions by a candidate not approved by the M.P.S.C. only the actual pay of the holder of the post should be recovered from the factory. Finance may see for remarks.
